WHAT WE DO

J.LinasDesign specializes in brand strategy, design and consulting. We are a branding studio that provides strategic design and consulting specializing in working for non-profit and ministry organizations. The heart of any organization is its brand and we help organizations find their voice and communicate the heart of who they are to their peers via print and our bread and butter the World Wide Web. Just remember it is all about creating a culture and that is what people want to participate with.

Examples of clientele we have worked with are Childrens Miracle Network, VCU Psychology Department, Tikvat Israel Messianic Jewish Congregation, and Barksdale Theatre at Hanover Tavern.

Jason Linas also has had experience on working with other brands in his career such as Neosporin, Bengay, Visine, and Listerine.
